

Three Interaction Types in AI-Assisted L2 Poetry Writing

Type A: Constraint Repair

AI identifies structural/
linguistic issues,
provides corrections

(Lyster & Ranta, 1997)

Type B: Exemplar Giving

AI provides model texts,
line options for
selection/adaptation

(Hanauer, 2010)

Type C: Surprise Harvest

AI generates unexpected
possibilities, inspires
new creative directions

(Coenen et al., 2022)

**Dominant at
Low temp
(60%)**

**Dominant at
High temp
(35%)**

Parameter Configuration Influences Interaction Type Distribution
